

HIMAX®

Brushless Type

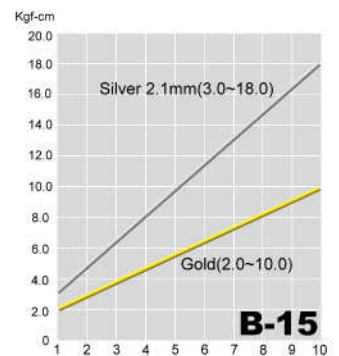

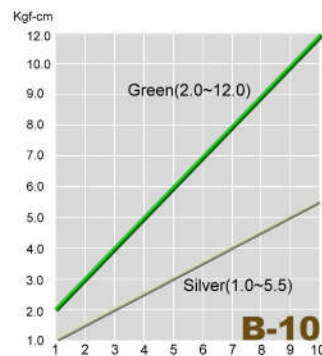

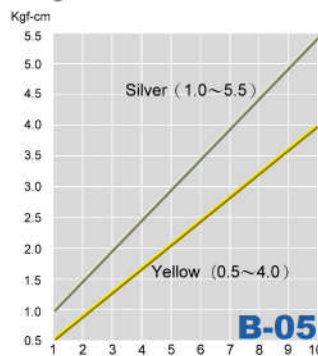

70% down Reduces the standard maintenance costs

Brushless Electric Screwdriver

B-05
B-10
B-15

- High quality brushless motor guarantees outstanding output torque and durability without maintenance.
- Turning on and off by semi-conductor almost makes permanent switch.
- Low Noise no carbon brush gritted, the noise is too low to interfere other electronic products.
- Stable and precise torque makes it high repeatability to provide high performance assembly ability.
- Having an auto-break function when the screw is tightened can reduce 80% noises.
- The usage of 30v DC ensures safety.
- Precision "Soft-Stop" fuction prevents shock to sensitive assemblies.
- Fitted with STC-01 with screw counting fuction.
